## AN INTRODUCTION

We are citizens of the New Federal State of China and member of the Whistleblower Movement, which seeks to collapse the malevolent regime of the Chinese Communist Party (CCP). We are fighting to protect New Zealand from this criminal organisation. We love this beautiful nation and refuse to let it be enslaved by the CCP.

## OUR MESSAGE TO YOU

We regret to inform you that a CCP controlled spy is present in your neighborhood. Her name is Wanli Zhu. Her residence is 100 Mansel Ave, Hillcrest.

Wanli Zhu, under the command of the National Security Committee of the CCP, has publicly slandered and threatened all Chinese who were brave enough to show their resistance to the CCP using YouTube.

Although her vicious attacks were seemingly directed at us free nationals of the New Federal State of China, her real target is the free citizens of New Zealand. The CCP hates you as much as they hate us. We are simply in the way. However, we will continue to stand our ground.

## THE TRUE MOTIVES OF THE CHINESE COMMUNIST PARTY

The CCP has infiltrated the mainstream media and social media of all corners of the globe using various methods of bribery, including the monstrous fortunes they have procured through shockingly sinister means. The CCP uses this money to manipulate the media and fabricate an arsenal of false information and propaganda to blind audiences around the world, deceiving viewers into believing lies as truth and truth as lies. The CCP has used this large scale brainwashing tactic in mainland China for 70 years. In last 30 years the CCP expanded its large scale indoctrination project to the rest of the world. The encouragement of racial conflict, violence and far-left and communist rhetoric are among some of the messages perpetrated by the CCP via mainstream and social media, most of which we are sure you have been exposed to already.

The CCP is responsible for the fall of Xinjiang and the fall of Hong Kong. Now their destructive tentacles are slowly crushing Burma.

## **WHO WILL BE THEIR NEXT VICTIM?**

Throughout 2020, the world suffered from COVID-19, or the CCP virus. At the beginning of the pandemic, Dr. Limeng Yan, a Chinese virologist forced to flee China because she spoke the truth, warned the world that the virus was an ultra-restricted biological and chemical weapon devised by the CCP. Yet, instead of heeding Dr. Yan's sincere warning and investigating the truth, many scientific communities and mainstream media outlets across the globe maliciously attacked her. Of course, this attack was fuelled by the CCP. However, the world is finally awakening to the truth that the virus comes from a laboratory in Wuhan, and that the free world has unknowingly been roped into a war with the CCP.

We understand that the diabolical motives of the CCP may be near incomprehensible for most citizens of the free world, including New Zealand. However, from firsthand experience, we the people of the New Federal State of China also understand how much the CCP desires to completely and utterly eliminate the free Western world through destroying its rich, deep Christian foundation and dividing its peoples using tactics like the previously mentioned racial conflict, especially through manipulating people into developing hatred of Western people and culture. Only when they have achieved this horrific end can the CCP enslave humanity under their communist, malevolent and cruel system.

## **WE IMPLORE YOU TO PROTECT YOURSELF FROM THE CCP!**

Each day the CCP remains undefeated, a hellish future of global human suffering grows ever so closer.

We understand this warning may seem intimidating and frightful, but the power and threats of the CCP are nothing compared to the almighty force of a nation united in the name of a free and peaceful future for humanity.

Hence, for our sake and the future of the world, we must firmly and clearly express opposition in any way possible to all individuals and groups or entities associated with the CCP. For example, letting friends and family know of the horrific crimes committed by the CCP, or sending complaints to local organisations linked to the CCP. We must also urge the New Zealand government to defend the foundation of freedom and democracy on which this nation rests.

By weakening the CCP through defending our freedom, we are also acting for the nations and ethnic groups enslaved by this wretched organisation, such as Hong Kong and the Uyghur people, who silently scream for freedom from daily torture and exploitation, including organ harvesting, forced sterilisation and "ethnic cleansing."

Thank you for your consideration of our message. We appreciate your efforts in joining us to defending the freedom and prosperity of humanity.
